Re: **2023 ASPHALT PAVEMENT AWARDS NOMINATIONS**

The Oklahoma Asphalt Pavement Association invites you to submit nominations for the **2023 Asphalt Pavement Awards Program**. Awards will be given to the winners and runners-up of outstanding projects in six categories, plus Proof of Quality Awards. Project owners, engineers, contractors and quality assurance labs will receive recognition. **Entry deadline is September 22, 2023.**

All projects submitted to the OAPA Awards Program must have been completed in the past 12 months (Sept. 2022 - Sept. 2023) with the exception of the Proof of Quality Nominations. The rating protocol is the same format as last year that includes the standard deviation of performance testing results. That complete information is included on the next page. **Only projects constructed by OAPA members in good standing are eligible for nomination.** For your convenience, a list of these members is enclosed. ***The asphalt contractor will be billed for the award submission, but the person submitting the nomination is responsible for the complete submission, including the testing results.***

Please complete a Nomination Form for each of your entries and **complete all required fields.** [Incomplete forms will be returned for additional information.](#)

Only the two best projects for each contractor in each category (with the exception of the Proof of Quality) will be considered. Due to the time involved in rating the nominations, we need to judge only the best.

**Winners will be honored at the OAPA Awards Luncheon on Monday, February 26, 2024, at the Embassy Suites in Norman, OK. The Luncheon will be held during our OAPA Asphalt Conference, and Conference attendance is required to attend the Luncheon.** There is no fee for the Luncheon beyond your Conference registration.

Thank you for helping us recognize the projects that are truly the "Best of the Best" and the people who built them.
